

AWARDS AND GRANTS

1989 Markey Fellowship Program. Applications are invited from investigators in the biological and biomedical sciences for summer research fellowships at the Mount Desert Island Biological Laboratory, an internationally renowned institute for comparative physiology and marine biology. Using vertebrate and invertebrate fauna from the Gulf of Maine, Laboratory researchers pursue diverse interests including the comparative physiology of the kidney, cell membrane transport, the mechanisms of cell division, and cellular and molecular aspects of environmental toxicology. Preference is given to applicants who are several years beyond the completion of the doctorate, who demonstrate evidence of an independent research program, and who are still in relatively early phases of research careers. The Fellowships, sponsored by the Lucille P. Markey Trust, include laboratory space, housing, supplies and equipment, and other allowances, depending on individual needs. Applications and instructions for the preparation of brief proposals may be obtained by contacting: Dr. Donald A. McCrimmon, Associate Director, Mount Desert Island Biological Laboratory, Dept. S, Salsbury Cove, Maine 04672, USA. Telephone (207) 288-3605. The deadline for completed applications is January 1, 1989.
